

ACHE-WISCONSIN LEADERSHIP DEVELOPMENT PROGRAM

Are you an early to mid-careerist looking to grow and develop your leadership skills?

Do you enjoy learning from colleagues across the state?

Are you willing to step outside of your comfort zone and accept feedback?

If you answered yes to the questions above, the ACHE-Wisconsin Leadership Development Program is the opportunity you have been looking for.

The American College of Healthcare Executives (ACHE) – Wisconsin Chapter Leadership Development Program combines site visits, lectures, group exercises, participatory events, skill assessments and networking that prepare emerging leaders with the skills to influence others and immediately impact their organizations. In addition to the core curriculum, the program also offers the leader the opportunity to interact with peers from across the state, receive coaching from successful early careerists and executives, increase exposure in the Wisconsin Chapter of ACHE, and the ability to network with Wisconsin's leading healthcare executives. An enhancement to the program this year includes a collaboration with Wisconsin Hospital Association including a site visit at WHA headquarters.

As a Leadership Development Program (LDP) participant, you will be provided:

- An opportunity to evaluate and enhance your leadership abilities and prepare emerging leaders with the skills to influence others and immediately impact your organization
- Further develop your personal leadership profile
- Develop a professional network of fellow early careerists
- Build relationships with a variety of healthcare executives throughout Wisconsin
- Become a mentor to students who are pursuing a career in healthcare
- Coaching opportunities from alumni of the Leadership Development Program
- Access to learning from Senior Executives who will offer insight into their career path and lessons learned
- Attend ACHE's Annual Conference and earn up to 12 Face-to-Face Education hours, with Conference registration fee provided by the Chapter

Past participants have experienced career growth, gone on to serve on ACHE committees and ACHE-WI Board of Directors:

"I feel very fortunate to have participated in the ACHE-WI Leadership Development Program Cohort X. LDP provides a great opportunity for networking and shared learning with other healthcare leaders across the state and I've made not only solid business connections but also friends as a result of my participation. If you get the opportunity to participate, don't pass it up! I would highly recommend the LDP program to early careerists." - Jennifer Benrud, 2019-2020 LDP

"I highly recommend investing in yourself by becoming involved with the Leadership Development Program from ACHE-WI. The Leadership Development Program provided me the tools to perform in my career today and the networking to help navigate the career of tomorrow." - Carl Selwick, 2018-2019 LDP

"The LDP experience exceeded my expectations. Through the relationships, experiences, and support, I believe my career has been forever changed." - Nick Ladell, PharmD, BCPS 2019-2020 LDP

"The Leadership Development program has really helped me to gain access and insight from high level executives that I normally would not have gained or may have taken years to gain access to. The knowledge sharing from these individuals throughout the program has been enlightening and instrumental in my development as a leader." - Derek D. Angle MBA 2019-2020 LDP
